That page does provide some information that will be useful. It is different from what is in the NIOSH report so we will have to discuss, resolve, and document.

Of more immediate concern is that this exchange has revealed that we have different documents.

It is possible that the SC-EPA-00000 numbers were put on the copy of the IH data I have after Aubrey forwarded the IH data we got from Ivan Smith. I will send you in separate emails the full set of IH data. When these data are recorded in Erik's data form make sure the SC-EPA-00000 number is recorded on the form.

We also have different version of what we are both calling the Lockey thesis. I will send you mine; you send me yours.

Page 16, last paragraph, discusses an employee named J.R. There is nothing about work schedules or overtime. The paragraph above discusses a different employee (T.C.). Again no information on work schedules or overtime. I think we are not on the same page.

RE: Work Schedule in Marysville

See page 16 (last paragraph) in Dr. Lockey's master thesis. Does this answer the question?

Subject: Work Schedule in Marysville

There is some information on work schedule in the NIOSH report about the Marysville plant. See page SC-EPA-00163. The information in the report applies to work schedules in December 2000. Please see if you can verify whether similar work schedules were used in the 1963-1980 time frame.
